

2025 HIGH-ROI DIGITAL MARKETING AUDIT CHECKLIST

The exact 14-point audit framework engineered by Nexus Digital to plan, optimize, and scale high-converting online campaigns for local and national businesses.

PHASE 1: TECHNICAL SEO & CORE WEB VITALS

SPEED & ARCHITECTURE

01 Next.js Mobile Speed (LCP < 2.0s, CLS < 0.05)

CRITICAL

Audit via PageSpeed Insights. Compress WebP/AVIF images and eliminate render-blocking CSS.

Action Tip: Target minimum 90+ Mobile Score on Google Lighthouse for instant ranking boosts.

02 LocalBusiness & Service Schema.org JSON-LD

HIGH IMPACT

Inject JSON-LD schemas for aggregateRating, areaServed, openingHours, and localized geo-coordinates.

Action Tip: Enables Google Rich Snippets, Knowledge Panels, and starred review previews.

03 Semantic Hierarchy Architecture (H1 / H2 / Canonical)

HIGH IMPACT

Enforce 1 primary H1 with target keyword. Audit zero redirect chains or self-canonical loops.

Action Tip: Keep URLs clean: e.g., /services/local-seo-gorakhpur instead of long parameter URLs.

04 Robots.txt & Dynamic XML Sitemap Search Console Sync

RECOMMENDED

Verify robots.txt access. Auto-submit dynamic /sitemap.xml with updated page frequencies.

Action Tip: Inspect URL Coverage tab weekly in GSC to catch 404s or crawl anomalies.

PHASE 2: PAID AD ARCHITECTURE & TRACKING FORTRESS

PAID MEDIA / PPC

05 Server-Side Meta Conversions API (CAPI) + GTM

CRITICAL

Server-side tracking for ViewContent, Lead, and Purchase bypassing browser tracking blocks.

Action Tip: Achieve Event Match Quality (EMQ) score > 8.0/10 in Meta Events Manager.

06 High-Intent Google Ads & Negative Keyword Fortress

HIGH IMPACT

Isolate high-intent search ads from broad queries. Add 150+ negative keywords to cut ad waste.

Action Tip: Prevents up to 35% ad spend wastage on completely irrelevant accidental clicks.

07 Dynamic UTM Tracking & Multi-Touch Attribution

RECOMMENDED

Append source, medium, and campaign tags to all ad creatives and links for exact ROI tracking.

Action Tip: Allows exact attribution of which creative generated each paying client.
